

Health. Nature. Life. This has been the mission of Futurebiotics since 1984.

For over 20 years, Futurebiotics, LLC has been dedicated to developing, manufacturing and marketing innovative nutritional supplements based on the latest science and research, combined with unsurpassed quality and cutting-edge technology. Operating under the jurisdiction of the Food and Drug Administration, all established standards and requirements are met for supplement manufacturing. With experts and experience in the field of nutrition, product research and development, industrial pharmacy, microbiology, chemistry, operations & logistics, package & creative design, sales & marketing and customer support, Futurebiotics has the skills and capabilities to design, manufacture, test and support all of the products it manufactures. Futurebiotics is a privately-held corporation with facilities in Hauppauge and Amityville, New York and employs over 300 employees.

Leader in Branding and Innovation

Futurebiotics continually develops products based on the latest science and research for good health and recognizes the importance of developing a healthy lifestyle through a comprehensive regimen of diet, exercise and nutritional supplementation. With a reputation for combining cutting-edge technology and unsurpassed quality, Futurebiotics is committed to formulating the most advanced and competitively-designed nutritional supplements available and currently offers over 75 branded products. Glass packaging helps preserve natural freshness and maintains potency.

Hair, Skin and Nails®

America's #1-selling beauty multi, Futurebiotics Hair, Skin & Nails® is a complete daily multi-vitamin that also provides targeted nutrition for healthy, lustrous hair, glowing skin and strong nails.

Millions of women have discovered the benefits of Hair, Skin & Nails®. Healthy is beautiful, so in addition to providing essential hair, skin and nail ingredients such as Biotin and Cysteine that fortify and nourish hair & nails, and an organic source of Silica, an important component of collagen; Hair, Skin & Nails® is a complete, daily multi-vitamin and mineral formula. On a daily basis, your body requires adequate amounts of an array of nutrients to look and feel its best – nutrients like vitamins A, C and all the B's, plus the minerals magnesium, calcium and zinc. Futurebiotics Hair, Skin & Nails® provides these important nutrients along with the extra ingredients needed for glowing skin, lustrous hair and strong nails. Results you can see and feel.....Guaranteed!

- Provides 5 mg. of organic silica, from horsetail extract, which plays an important role in the body's production of collagen.
- Supplies 1500 mcg. of biotin to help fortify and nourish hair and nails.
- Features sulfur-bearing amino acids to support strong and resilient hair, skin and nails.
- Over 24 specially combined vitamins, minerals and herbs provide the nutrients needed and helps correct the effect of dietary deficiencies.
- Packed with 600 mg. of calcium per daily dose.
- Includes antioxidant support from vitamins C, E and beta-carotene, and stress support from a complete selection of B vitamins.

Targeted Nutritional Supplements

For those serious about a healthy lifestyle, Futurebiotics developed a new line of technologically advanced, condition-specific Targeted Nutritional Supplements. Each product is designed with an ethic that honors the trust of health-conscious consumers and supports our mission of: Health. Nature. Life.

Health – providing real health solutions, guaranteed. We carefully invest each product with natural essence, potency and balance. Each product employs clinically-tested natural ingredients that deliver proven benefits – consistently, by design. Cutting-edge science is complemented with natural co-factors for intuitive natural fit. Each product features unique BioAccelerators™ that enhance bioavailability. Only the finest natural ingredients from around the world, skillfully formulated, are preserved in sealed amber glass. Products that deliver on a promise: of purity, efficacy, commitment, caring, health.

Nature – there is real power in nature. Power to awaken, nourish and rejuvenate. The power to heal. Nature packages the wisdom and harmony of healing using subtle, ingenious and sophisticated methods of delivering health and longevity in whole foods. Taking inspiration from nature, Futurebiotics provides power and symmetry in cutting-edge active ingredients extracted from natural sources plus the benefits of whole food balance – natural co-factors, complementary unextracted whole food ingredients, and natural aromatic essence. 100% vegetarian and pure. Sophistication and care – just as nature intended.

Life – Health and healing are life's natural gifts when body, mind and spirit align with Nature's wisdom. Every Futurebiotics targeted nutritional supplement delivers on a promise: specific, targeted health solutions using clinically-proven natural ingredients. Labeling is clean and crisp – laden with information and clarity about the design and uses of each product. Our commitment doesn't end with the product. Every package provides health strategies meant to deliver meaningful results in the Futurebiotics Action Plan. Strategies that make sense. For real results. For life.

To achieve these goals, the Targeted Nutritional line is:

- 100% vegetarian.
- Employs one or more clinically-studied ingredients in amounts proven by research to be most effective.
- Incorporates “whole food” ingredients by including unextracted whole food or complementary ingredients that provide natural co-factors that may be lost when only extracted or highly purified ingredients are used.
- Contains Futurebiotics exclusive BioAccelerators® blend to help enhance ingredient bioavailability and nutrient absorption.
- Provides extensive ingredient education and product design rationale on the package.
- Includes a Healthy Action Plan right on the package that provides applicable, lifestyle health strategies and recommendations.

Futurebiotics Targeted Nutrition line includes 25 products focused on the health concerns of today, including:

nutrivation™ - super antioxidant with GliSODin® clinically proven nutrients for healthy vision
